Allied Electronics and Abracon Corporation Sign Distribution Agreement

Fort Worth, TX – Allied Electronics, a subsidiary of Electrocomponents plc (LSE: ECM), has signed a distribution partnership agreement with Abracon Corporation.

“Allied is excited to offer our customers the Abracon Corporation product line, which will greatly expand our current offering of crystals, resonators and oscillators.” said Lee Davidson, president of Allied Electronics. “Customers buying Abracon products from Allied will get a wide range of devices in stock and in the quantities they need.”

“Abracon Corporation is very pleased to announce our partnership with Allied Electronics,” said Christopher Polley, President of Abracon Corporation. “Allied Electronics has been in business for over one hundred years and I am confident that Allied’s customers will greatly appreciate the increased product offering of Abracon Frequency Control and Silicon Timing IC’s that will be offered in stock ready for immediate shipment.”

Allied Electronics stocks more than 135,000 electronic components and electromechanical products from over 300 world-class manufacturers. For more information on Allied Electronics, visit www.alliedelec.com.

About Allied Electronics
