ABRACON Corporation announces a nationwide distribution agreement with Mouser Electronics

Rancho Santa Margarita, California – July 30, 2004

Abracon Corporation announces a nationwide distribution agreement with **Mouser Electronics** of Mansfield, Texas. Mouser is a nationwide catalog and online distributor of electronic components with worldwide shipping capabilities for supplying design engineers, academic institutions, and OEMs.

"Mouser Electronics is a great addition to our distribution line up, and will provide our customers with on-line ordering for some of Abracon's most popular offerings in our frequency control product line," stated Christopher Polley, President of Abracon Corporation. "Mouser will be the first distributor to stock the ABM10, 2.5x2.0mm ultra miniature SMD high frequency Crystal. In addition, Mouser will also be the first Catalog distributor to stock the ABRACON Low EMI Spread Spectrum Oscillators, which can reduce EMI up to 20dB compared to standard clock oscillators"

"ABRACON is a perfect fit for Mouser with their new technologies and our speed to market through our continuously updated website and new catalog every 90 days," said Glenn Smith, President and CEO of Mouser Electronics. "Our company believes in providing engineers and buyers of electronic components with the best possible service, regardless of size of the customer or the size of the order."

Mouser Electronics, a subsidiary of TTI, Inc., is a leading online and catalog distributor featuring award-winning service. As one of the fastest distributors from technical support to shipping, Mouser's state of the art 170,000 sq. ft. facility ships same day orders from 7am-8pm CST. Mouser's website (www.mouser.com) provides customers with easy online ordering, bill of material, data sheets, and online catalog browsing. The company strives to provide engineers and buyers of electronic components with the best possible service, regardless of the size of the customer or the order.

Abracon Corporation, founded in 1992, is a privately held California corporation and a worldwide leading supplier of electronic components. Abracon (www.abracon.com) offers a wide selection of crystal oscillators, quartz crystals, ceramic resonators, filters, SAW devices, inductors, and transformers. The company is ISO9001/QS9000 certified with design engineering and sales offices in California, China, Taiwan, Singapore, and Germany. Abracon products are marketed worldwide through independently owned contracted representatives and authorized distributors.
