

ABRACON CORPORATION

PRESS RELEASE
JULY 19, 2004

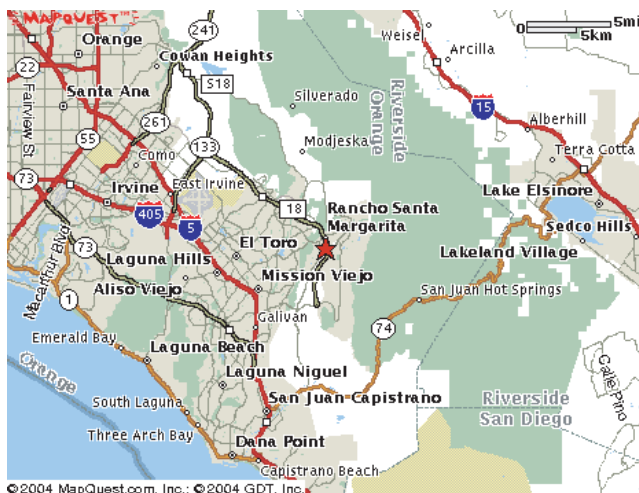

Abracon Corporation has relocated its United States headquarters to a new location in the beautiful city of **Rancho Santa Margarita, California.**

Update your PDA's, address books and organizers! On July 19, 2004, Abracon Corporation relocated its United States headquarters to a new location in the beautiful city of Rancho Santa Margarita, California.

Abracon is growing by leaps and bounds! The new facility provides increased efficiencies for design engineering, manufacturing, test, and distribution of Electronic Components. "While roughly the same square footage, our new building (built in 2002) will provide greatly improved space utilization. We operated in our Aliso Viejo facility for the last five years. It was time for an upgrade and this new building will support our continued growth for years to come." declared Don Bebout, Managing Partner and CFO of Abracon Corporation.

Abracon's new headquarters in Rancho Santo Margarita, CA.
